United we stand

United we stand

Get some, if you want some
Come and get some
If you want some

Yeah, welcome to "The Lounge"
For jump off
Yours truly, Guru
Shut up, my man!

BT on a track
Playin' like that
Comin' at you with the
New jump off, haha
Check this out

If you want some
This base is freakin' it

Aye yo! I'm ready to go
Ready to go, ready to go
Ready to go, ready to go
Let my energy flow

Ready to go, ready to go
Ready to go, ready to go
Let my energy flow

Ready to go
Let my energy flow
Steadily bro
Scaring off the enemy, yo

Progression
While I'm releasing aggression
In this rap profession
I keep other cats guessing

International player

Pure poet
More devoted
But more soul than y'all know it

Voted as a spokesman
For people with dream
Feining my team
Out in front leading the scene

Knowledge of self

Don't they see the world's tired of them?
They're lying again
Got the music dying again, na

Don't they see the world's tired of them?
They're lying again
Got the music dying again, na

Don't they see the world's tired of them?
They're lying again
Got the music dying again, na

Don't they see the world's tired of them?
They're lying again
Got the music dying again, na

I can't let it go down
We can throw down
I'll meet you on the block
And we can have a show down

If you want some
If you want some
If you want some, want some
If you want some

So here we are in these last days
It's grimy and nasty
Refined is my mind
I'm keeping some of my pathways

Jerks always wanna take kindness
For weakness
Revealing secrets
Knowing I be dealing deep shit

It's all good

I'm growing stronger daily
I'm father to babies
I bomb you crazy

Got more knowledge than you can get
From the Internet
I spit wisdom that I get
From introspect

Don't they see the world's tired of them?
They're lying again
Got the music dying again, na

Don't they see the world's tired of them?
They're lying again
Got the music dying again, na

Don't they see the world's tired of them?
They're lying again
Got the music dying again, na

I can't let it go down
We can throw down
I'll meet you on the block
And we can have a show down

If you want some, come and get some
If you want some, come and get some
If you want some, come and get some
If you want some, come and get some

If you want some, come and get some
If you want some, come and get some
If you want some, come and get some
If you want some, come and get some

Want if you want, want want some
Want if you want, want want some
If you want want want some

Want want some some
Knowledge of self
Want some
Want want some some
Knowledge of self
Want some

Want want some some
Knowledge of self
Want some
Want want some some

Knowledge of self

Don't they see the world's tired of them?

They're lying again

Got the music dying again, na
