When I look at you
Baby I'm amazed after we've been through
All that I can say is there is no perfect plan and no
finish line
We just learn to fall and get back dark inside
Didn't think we make it so glad
We didn't break up now we're good together and
stronger than before

Chorus:
It's not complicated
And I wanna celebrate it
Cause we did it like a first time
When you walk into the room man
I can't believe we made it
When all around this love is fading
When you look into my eyes
It feels like a first time again

We stood out on the bridge
And everywhere in between
Pushed it to the edge
Ain't never lost your faith
You proved that we were strong
And I'm glad you did
There's something that I can't believe I couldn't miss
We don't have to try hard now that we've come ???
where just living
But on the other side of this

Chorus

You wanna know but now
I do it all again
If they would leave me too
All that I have is you
Oh
Do....

Didn't think we make it so glad
We didn't break up now we're good together and

stronger than before

Chorus
