Everyday I wake up
To another day gone by
Nothing but the open road
And a never ending why
Anything can happen yeah
But nothing never does
I try to changelt's kind of strange
The same as it ever wasBut look at us
Chorus:How do I deal with you
How do I deal with me
When I Don't even know myself
Or what it is you want from me
How do I deal with us
How do I know what's real
When I don't even trust myself
Or what it is I feel
How do I deal
Every night in the darkI lie awake in bed
How am I supposed to dream
with all the static in my head
(Torn in all) torn in all (in all)

directions (directions)

And I pray for some relief

What can I do but feel the

weight I'm underneath

And grit my teeth

Repeat Chorus

How do I deal with love

Why do I why do I have to choose

Everybody's telling me

What the hell I have to do

How do I deal with us

How do I know what's real

When I don't even trust myself

Or what it is I feel

Now how do I deal

(How do I deal with you)

How do I deal with you

(How do I deal with me)

When I don't even know myself

Or what it is you want from me

(How do I deal with love)

How do I deal

(Why do I have to choose)

When everybody's telling me

What the hell I have to do

(How do I deal with you)

How do I deal with you

(How do I deal with me)

How do I deal with me

When I don't even know myself

Or what it is you want from me
