Baby baby try me crazy walking on the edge
The way you touch yourself has got me hanging on a
ledge
Is it me, is it you something that I didn't see
I walk away but there you are standing I still need

Don't tell me that you won't go
Cause I know that you will
Don't tell me that you won't do me baby
Cause I know that you I know that you
Mister Mister, I'm a sister that you cannot play
If I give it up to you you know you'll take it all the way
You can try, you can steam
You know that chemistry don't lie
Cause the way you move the body has given me the
vibe

Don't tell me that you won't go there baby
Cause I know that you will
Don't tell me that you won't do me baby
Cause I know that you I know that you
I know you will
