This could've been just another day
But instead we're standing here
No need for words
It's all been said
In the way you hold me near
I was alone on this journey
You came along to comfort me
Everything I want in life
Is right here
'Cause
This is not your ordinary
No ordinary love
I was not prepared enough
To fall so deep in love
This is not your ordinary
No ordinary love
You were the first to touch my heart
Made everything right again
With your extraordinary love
I get so weak when you look at me
I get lost inside your eyes
Sometimes the magic is hard to believe
But you're here before my very eyes
You brought joy to my world
Set me so free
I didn't want you to understand
You're every breath that I breathe
This is not your ordinary

No ordinary love
I was not prepared enough
To fall so deep in love
This is not your ordinary
No ordinary love
You were the first to touch my heart
Made everything right again
With your extraordinary love
From the very first time that we kissed
I knew that I just couldn't let you go at all
This day on remember this
That you're the only one that I adore
Can we make this last forever?

This can't be a dream
'Cause it feels so good to me
So good to me
This is not your ordinary
No ordinary love
I was not prepared enough
To fall so deep in love
This is not your ordinary
No ordinary love
You were the first to touch my heart
Made everything right again
With your extraordinary love
