Here I lay, embraced with pain
Few are my final words
An angel of light, beside my bed
Coming to take me away

Sinner
Blasphemous
Sinner

A contemplated soul, a life in vain
Infinity is calling my name
I welcome death, my only friend
Tranquility forever more

Sinner
Blasphemous
Sinner
The angel won't take me away

No holy ground for me
Suicide, self deception, desecration
North of the church, my burial place
A sinner set aside
A misguided faith, to love and light
Made me enter the path of least resistance

I opened my veins, a quick relief
My infinite insight of disbelief
Mourn not those, who is about to die
But those who'll be reborn
Christ won't save me now

Eternal life, obsession of man
Death is my final choice
In life I was weak, in death I will fly
Outcast from heaven forever

A last sanctuary awaits me
My life has burned out
Time to die

Behold my hour of dying
No epitaph
Behold my hour of dying
I bid my last farewell

As the wings of pain
Carry me to the kingdom of death
I know that this is my final sleep

Out of time, out of space
I am forever I am free

Behold my hour of dying
No epitaph
Behold my hour of dying
I bid my last farewell
