

Hey "Karma"

Visit "[Karma](#)" on MotoLyrics.com

I wouldn't wish your new circumstance
On my own worst enemy
But I've gotta admit, yeah, it feels kinda good
You've been forced to see
You can take what you like in this life
But nothing's for free
Karma's gonna come
And wipe that smile right off your face
Karma's gonna come
And put you in your place
So I hear you've been hanging around
All your old friends and your foes
Sorry that you've been misled to believe
Forgiveness comes and goes
You can hurt who you want in this world
But nothing's for free
Karma's gonna come
And wipe that smile right off your face
Karma's gonna come
There was a time when I sat happy
Up here on my own
Thinking nobody could touch me now
And give my bad deeds a home
Karma's gonna come
And wipe that smile right off your face
Karma's gonna come
And put you in your place
