It's got all the elements  
Hammocks and heights  
Room for rebellion  
New dirty light  
Words without meaning  
We're giving them none  
Friends bound for destruction  
Not fearing the sun

With opulous trees bending down to a shore  
Finding time in the day to ask, "Who would want more?"  
Bring out the sunscreen or bring on the sin  
As soft summer air embraces your skin  
Oh  
Nothing's on purpose  
It all falls in place as we're getting used to this new island pace

Oh  
I'm restless with ocean and hearing him speak  
It's strange what can happen in only a week  
Well I'm focused on sea things but quickly reply  
It's funny for some that a rock is their sky  
As our stakes are turning to darkness we arise to this island occasion  
That simply is wise

Turn into creatures of the summer heat  
Embracing the night with music and laughter  
The earth is pulsing under our feet  
Time takes you now  
Fear it after

Think it's time for a break from the stresses of life  
Time to relax and unwind for a while  
Now we're on this rock  
It's like we never left  
And we're floating away from the rest of  
The rest of the world  
Which simply is wise

As I sit  
Getting high under summer's sunset  
Behind mountains and oceans  
Well I must confess if I died right now  
I'd stare death in the face and say  
"Heaven just tried to compare to this place"  
Which simply is wise

Just turn your head  
Don't even think about the city  
Make due with this bed after a long day in the sun  
We turn into creatures of the summer heat  
Oh  
Attacking the night with music and laughter  
The earth is pounding under our feet  
Time takes us now  
We'll fear it after

Simply is wise  
La la la la  
La la  
Simply wise  
Simply is wise  
La la la la la la  
La la la la la

Sun is almost up  
Going down  
Going down

Sun is almost up  
Going down  
Going down
