There I go, go at the speed of sound
I'm higher than a satellite and you're stuck on the
ground
Your cries for help out soften me
So don't expect to see, see me waiting here to be

Be your wonder girl, not gonna save you
Wonder girl, go save yourself
No way, won't go down in your flames
Because wonder girl won't save your life
Oh, won't save your life
Oh, won't save your life

There you go, go looking for a fight
I got a heart of steel, you can't cut and bleed me dry
My secrets you can never keep
So don't expect to see, see me waiting here to be
Be your wonder girl, not gonna save you
Wonder girl, go save yourself
No way, won't go down in your flames
Because wonder girl won't save your life

I never thought it would end this way
But I can't compete with these addictions that you've
made
Now every touch becomes the enemy, and I will never
be

Be your wonder girl, don't say you love me
Wonder girl, when you hate yourself
No way, won't go down in your flames
Because wonder girl won't save your life

Wonder girl, not gonna save you
Wonder girl, go save yourself
No way, won't go down in your flames
Because wonder girl won't save your life
Oh, won't save your life
Oh, won't save your life, tonight
