Looking out the window of this big
Big ship
And it's really coming down outside
There's something in her eyes
It's like the morning mist as it lifts to show the sun's still
alive

Somebody once told me, "You're gonna know right
away
Once you find that secret somebody to hold for the rest
of your days"

She wears a ring already
She's steady in love with another man
He thinks she's really ready so why does she keep
touching my hand

So terrified and tongue tied the morning after
Will she regret the sweet words she said
It could've been the wine
Or just the high of laughter we shared on the upper
deck

And the wind blew so slowly
We were swaying in the waves
She looked over
Said, "Hold me
Please don't make no mistake"

She wears a ring already
(I wear a ring ahead)
She's steady in love with another man
He thinks she's really ready
(Yeah)
(I think I'm really ready)
So why does she keep touching my hand
(So why do I keep touching your hand)

Hand
Your hand
(Mmm)

My hand
My hand

Looking out the window of this big
Big ship
And it's really coming down outside
There's something in her eyes
It's like the morning mist as it lifts to show the world
they're still alive
