Hello ladies and gentleman
Welcome to the Starlight Lounge
I'll be your host this evening
We're gonna have a lovely time
I have some friends I brought in they go by the name
Hey Ocean!

Ha ha
Ha ha ha
Ha ha

Ha ha ha
Oh oh oh oh

Ha ha ha
Oh oh oh oh

Yeah
Check me out
Now I don't live in Van and I don't live in the school
base
I live in a van man
I live out my suitcase
Ask my roommates
I live off drive-thrus
Fries
Two shirts and a tube of toothpaste

I live in a new place every few days
How I'm living is never staying a minute too late
I just move to the drums son
Snooze when the sun comes
Someone once asked me if I knew what I run from

[Hey Ocean!]
What are you running away from
What are you running away from
What are you running away from
Why are you running away

Gonna make this escape
Leave no notice just take off to any old place
As long as it's far away from where you are today

Gonna make this escape
Gonna make this escape
Gonna make this escape

[Shad K]

Yo

It isn't my intuition to sit when I'm facing the fire

My end is the distance

I'm wired

It seems I'mma make it on fire

These robots I designed

Back to the place where I wired mind

I'm a nature man

They put this fire in me

Stay thoughts in my brain often can't stay on the same
track

Train hopping now or the next plane take off then hit
the road

Then make my escape in the sky

We all die but I hate coffins

Can't stay boxed in here while I'm alive

'Cause this place is a great town and I know I may not
survive

[Hey Ocean!]

What are you running away from

What are you running away from

What are you running away from

What are you running away from

What are you running away from

What are you running away from

What are you running away from

Why are you running away

Gonna make this escape

Leave no notice just take off to any old place

Gonna make this escape

Gonna make this escape

Gonna make this escape
