Stand still and know that He is God
Know that He will never leave your side
Stand still and know that He is God
Know that He will never leave your side
He'll fight your battles if you let Him
He'll be your refuge; He'll be your comfort
He'll fight your battles if you let Him
He'll be your refuge; He'll be your comfort
So you should let go, let God, let go, let God, let go, let
God
Let God have His way
So you should let go, let God, let go, let God, let go, let
God
Let God have His way
(repeat 3 times)

He'll fight your battles if you let Him
He'll be your refuge; He'll be your comfort
He'll fight your battles if you let Him
He'll be your refuge; He'll be your comfort
He'll fight your battles if you let Him
He'll be your refuge; He'll be your comfort

So you should let go, let God, let go, let God, let go, let
God
Let God have his way
So you should let go, let God, let go, let God, let go, let
God
Let God have his way
So you should let go, let God, let go, let God, let go, let
God
Let God have his way
