(Verse 1)

There are so many things about the will of God
The things we don't understand because they seem so
hard
We try to find the way that seems to be just right
But the way that we choose only leads us further from
the light
But if we can learn to accept the things we cannot
change
And never question God for we'll never know His way

(Chorus)

We must accept what God allows
And we must never try to tell Him how
To order our lives
He has a plan in mind
He's the one who made you, created you, saved you
And He knows what's best for you
His will is good
It is acceptable and it's perfect

(Bridge)

There are many things about
What God allows that we don't understand
But if He allows all of these things to be
It's a part of the Master plan
He knows what's best
And He won't put more on you than you can, you can
bear
His will is good, it is acceptable and it's perfect

(Vamp)

Yes, yes, yes to Your will
His will is good, it is acceptable and it's perfect
