

Hi-Five

"Move Your Body"

Visit "[Move Your Body](#)" on MotoLyrics.com

You've got to clap your hands to the music

You've got to stomp your feet to the beat, yeah

Walk around in a circle, yeah

Till you come right back to me

Till you come right back to me

Grab your partner by the hand

Spin them round and round and round

Kick your heel and point your toe

Round we go with a 'doe-see-doe'

Move your body up, move your body down

Move your body side to side and shake it all around

Now you touch your nose, now you touch your feet

Now you start to swing your arms, sing them to the
beat

You've got to clap your hands to the music

You've got to stomp your feet to the beat, yeah

Walk around in a circle, yeah

Till you come right back to me

Till you come right back to me

Here we go, one more time

One, two, three, we're feeling fine

Hands on your hips and bend your knees
Tap your toes and dance with me
Slide to the left, slide to the right
Bring your feet together so you can jump in time
Hands on your hips, now you bend your knees
Now you start to tap your toes, tap them to the beat
You've got to clap your hands to the music
You've got to stomp your feet to the beat, yeah
Walk around in a circle, yeah
Till you come right back to me
Till you come right back to me
You've got to clap your hands to the music
You've got to stomp your feet to the beat, yeah
Walk around in a circle, yeah
Till you come right back to me
Till you come right back to me
Grab your partner by the hand
Spin them round and round and round
Off we go with a doe-see-doe
Kick your heels and away we go
