I gotta start today with a brand new feeling
Get rid of evil thoughts and prime my mind
I take it as it is in this chaotic world
Recognize and choose my own values

I was taught by my life
Nothing Comes from nothing
So I gotta move all the time
I gotta find my place
The most important thing is
To keep your faith strong

I gotta start today with a brand new feeling
Under the sun
Whatç£— my purpose in life
Iç£>e got precious love
Itç£— in my body
I will keep and protest it forever

Was taught by my life
Nothing Comes from nothing
So I gotta move all the time
I gotta find my place
The most important thing is
To keep your faith strong
