I know you did it; just admit it
I know you did it; just admit it

I spy with my little eye
Your back window late at night / what I saw it
Wasn't pretty; what I saw it wasn't pretty!

I know you did it; just admit it...

I saw you off the leash
I caught you killing time
What you said it sounded sick
What you said it sounded sick!

You're a creeper, you're a sneaker, you're a snitcher,
you're a thief
You're a liar, you're a lurker, you malinger, you
retreat...

I know you did it; just admit it...

Think you're above the law
You hit below the belt
What you said it wasn't funny
What you said it wasn't funny!

Did it
Admit it....
