Over hills and over miles
My head gets lost on Saturdays
I take a walk around the block to see if you got back
okay
Guess I'm heading home
I'm nothing now.

Zeroed out and zeroed in
I like the Wednesdays when they rain
Another day another dollar spent above the grave
Just how should I spend my time?
I'm nothing now

Another Tuesday come and gone
A holiday gone by
All I want is just
Another Friday night spent with you
It's nothing new, I'm nothing now

Another Tuesday come and gone
Another holiday gone by
All I want is just
Another Friday night spent with you
It's nothing new, I'm nothing now
