(feat. Talib Kweli)

[Hi-Tek:]

(Uhh) Yeah, yo Kweli whattup? (Uhh)  
Time to get this dough man, what's happenin?  
Tell 'em about New York son man

[Talib Kweli:]

New York red hot in the summer and blue in the cold  
winter  
In the 'Natti they roll spinners, be coolin the most  
Dennis  
You know the flows in this, tone is a known menace  
When we come switch from 'em we finish to "None of  
Yo' Business"  
Where I'm from we don't be talkin loud, that's cause we  
walkin proud  
More black rain fallin from the clouds soon as I saw the  
crowd  
All the liquor started pourin out, bodies they chalkin out  
Kweli the Great they're callin out, that's what I'm talkin  
'bout  
Pneumatic like a phone I gotta roam a dog got a bone  
I still gotta get though, I'm gettin grown  
I'm plottin on a plot to own, stock up on supplies 'til the  
deal  
Cross the T, dot the I, signed a contract, get a contact  
Y'all niggaz secondhand I come to discover  
You runnin for cover kid your rhymes is hand-me-down  
like older brothers  
They gon' bug us, we save the lives of the young  
among us  
And your boy still got that hunger, you gotta love us

[Chorus: Talib Kweli]

They say the time is now, the place is here  
Don't be a scary muh'fucker, stay and face your fear  
After they pick up, the body momma trace the tear  
This is a stick up, get them damn hands in the air!  
Yeah the time is now, the place is here  
Don't be a scary muh'fucker nigga face your fear  
After they pick up, the body momma trace the tear

This is a stick up, get them damn hands in the air! Yeah

[Hi-Tek:]

This 'Natti shit nervous street corner feet hurtin  
Hustlin, do it and askin God what's my soul purpose  
I'm stayin in the lab, my life is up for grabs  
As soon as I slip niggaz gon' criticize my ass  
Fuck 'em I'ma keep puffin Hi-Tek stackin thousands  
Niggaz hated when they heard me on that 50 album  
The streets is callin when my nigga tell me he need a  
boost  
And bring him a pack, cause he know my roots

[Chorus: immediately fades to end]
