Music makes me want to move with you  
Music makes me want to groove with you  
Hold my hand, and listen to the band  
Feel the beat and you'll understand  
Feel the beat, pounding in your heart  
Feel your feet when the rhythm starts...  
Let the music take control  
Let your body rock and roll  
Music makes me want to move with you  
Music makes me want to groove with you  
Bomp Bomp Bomp  
We're gonna dance all night - yeah  
Bomp Bomp Bomp  
We're gonna be alright - yeah  
Music makes me want to move with you  
Hear that rhythm it makes you wanna swing  
Hear the music and start to sing  
Sing the song and sing it out loud  
Make yourself heard above the crowd  
Music makes me want to move  
Music makes me want to groove  
Music makes me want to move with you  
Music makes me want to groove with you  
Bomp Bomp Bomp  
We're gonna dance all night - yeah  
Bomp Bomp Bomp  
We're gonna be alright - yeah  
Music makes me want to move with you
