"Friend In The Field"

Visit "[Friend In The Field](#)" on MotoLyrics.com

Stumbling round
Falling down
Need to sleep
Here looks good, til I find my way back home

We lost a friend in the field tonight
Still I wave a beam of light
We lost a friend in the field tonight
Still I wave a beam of light

There's no up
There's no down
Side to side
Lost and found, til I find my way back home

We lost a friend in the field tonight
Still I wave a beam of light
We lost a friend in the field tonight
Still I wave a beam of light

We lost a friend in the field tonight
Still I wave a beam of light

We lost a friend in the field tonight
Still I wave a beam of light
We lost a friend in the field tonight
Still I wave a beam of light
