[Verse 1 (Ripper)]

Broken down and oppressed by the secrets  
A prisoner of yourself  
Secrets hidden in an enigmatic temple  
A pain that you never release

[Bridge 1 (Ripper)]

In a moment a fusion of emotions  
Can make you stronger than fear  
Letting you say what's on your mind

[Chorus (Ripper)]

Stare at yourself  
The power can be found  
Make a wish  
Straight to the skyline  
Make your dreams come true  
The best bet is yourself

[Young Master]

Living in sorrow  
I never know if  
What I'm saying, is what I believe in  
Ain't I fighting  
For ideas  
I don't believe in?

Living in sorrow

I never know if  
What I'm saying is a truth I can believe in  
Ain't I fighting  
For ideas  
I don't believe in?

I have the need to know what is wrong  
Have I been judging what they have been thought?  
Come together, let's change it all

[Chorus (Ripper)]

[Young Master]

Feeling stronger to throw away

The secrets hidden in my world of pain  
Feeling stronger to throw away  
The world of ideas they put me in

[Epilogue (Young Master)]

Can't we live in together?

As we think it's right?

I don't want to hurt your freedom

- I will live free -

So don't try to hurt mine

- On and on -

I don't want to change your world

So don't try to change mine

Why I have to follow your path

- I will live free -

If having my own way

Is nice to me

- I will live free -

Stare at yourself, stare at yourself

Stare at yourself, and find yourself
