A right step in the wrong direction,
Hesitant with no hesitation.
You know where you don't belong.
(It all goes wrong, so wrong.)
Up to the act, to the chemical fiction.
There's no such person, I'll always pretend.
For me to be somebody, anyone but me. (So go)
Hold me up to break me down.
(They're never gonna take you.) Just go.
Just pick me up to push me down

Take these wings off my shoulders,
I'm ready to fly.
Push me off or push me over,
It's too hard to decide tonight.
My world is breaking down tonight.
My arms are breaking off tonight.
So keep your balance,
And keep your eyes closed so tight tonight.

Farewell to the dreams we wish for.
Kiss it goodbye, come on kiss it once more.
And all their best was bigger than you.
It's all too big for you.
I'm out of breath and I can't slow down
Enough is enough, the plot has burned out.
Breathe in, breathe out it's all for you.
It's all we can do. (So go)

Hold me up to break me down,
(They're never gonna take you.)
Just pick me up to push me down.
(They're never gonna take you.)
So go away.

Take these wings off my shoulders,
I'm ready to fly.
Push me off or push me over,
It's too hard to decide tonight.
My world is breaking down tonight.
My arms are breaking off tonight.
So keep your balance,

And keep your eyes closed so...

So hold on to me.
Tell me every, everything.
Say everything to me.
So hold on to me
Tell me every, everything.
Say everything to me.
So hold on to me.
Tell me every, everything.
Say everything to me, please.

Take these wings off my shoulders,
I'm ready to fly.
Push me off or push me over,
It's too hard to decide tonight.
My world is breaking down tonight.
My arms are breaking off tonight.
So keep your balance,
And keep your eyes closed so....
