Just keep coughing, smoke another cigarette
Dream another big dream, just live and regret
So fuck the warning signs, I'm already dead inside
Dying for a feeling to say goodbye (say good night)
I won't let you let me go this time it's all I have
Keep screaming, no one's listening
Now I'm tired, reaching out for anything
Screaming for attention, something's gotta give
Focused in black and white living like the colorblind,
every sense feeling
A reason to save my life
I won't let you let me go this time it's all I have
Keep screaming, no one's listening
And I won't let you let me go this time it's all I have

I'll give up all I have, since you are everything
This is all I ever needed to save my life, never open my
eyes
I can't let you let me go
I won't let you let me go this time it's all I have
Keep screaming, no one's listening
And I won't let you let me go this time it's all I have
