Let the blackness roll on
Ain't so cold tonight
Mother's cool reptilian womb
My fingers trace the exit wounds
by graveyard light
There's bone dust in my throat and everything is dead
but it's all right
Take it easy
You bleed so easy
Bleed me an ocean
Bleed me an ocean tonight
Bleed me an ocean
By electric graveyard light
Let me lie beneath the sky
Bleed me an ocean
Teach me how to die
As the blossom eats the butterfly
Can you feel the cold death
That rides along your spine
Let the blackness roll on
You bleed so easy
Let the blackness roll on
I was sexless in clouds again
I was chasing a cold, cold wind
I've become bored with flesh and bone again
The deepest alone
I was riding the turbulence
an ocean of Hades
it's all downhill from here
on the outer nowhere
Let the blackness roll on
Let the blackness roll on
You bleed so easy
I was stoned to the drone
of the blackness that hums
I've become bored with flesh and bone again
The endless hum of the highway drone
I was riding the turbulence
an ocean of Hades
The taste of dead sex on my tongue
Let the blackness roll on
On my tongue, yeah

You bleed so easy
let the blackness roll on
You bleed so easy
Just like a rain drop
I was born baby to fall
and scale these prison walls
It was over before you were born
Sucked into the vacuum of this universal tomb
It was over before you were born
Sucked into the vacuum of this universal tomb
Old blossom dies
Like a young man bleeds
The insects hum with their hunger and grieve
An icon of pale bone
Static white dream
Blind in the wilderness
Everybody scream
I couldn't find my way
Out the door
We all died
Woke up on the floor
yeah alright yeah
I ride the painted whore
She gives good universal scream, scream
I ride the painted whore
I ride the painted whore
She gives good universal scream, scream
She gives good universal scream, scream
She gives good universal scream, scream
I ride the
painted whore
