I feel the wetness oh her tongue  
That slides across my skin  
The viruses crawl over me  
And feel for some way in  
Cut you with my cock Cassie likes it in her hand  
Cassies dead inside I came to fuck the open wound  
So hold it open wide  
Cassie loves to swallow this bleeding will it stop  
I left Cassie hollow cut you with my cock  
Take me into the ocean  
Lay me out on her shore  
Wake me when the sun burns out  
And we'll run forever more  
We're all gonna die tomorrow  
The freaks are screaming burn it down  
She can't feel the weather  
I can't touch the ground  
Pale and twitching, twisting to the cold dance  
Watching the room grow old a funeral romance  
Somewhere, someone's, screaming that the worlds  
gone  
Smear me with your blood and let these dead boy play  
their grave songs  
Slide across the warm red floor to meet me  
Lock the bathroom door before they crawl to eat me  
Cut her throat and whisper that we're going home  
Twitching to the cold dance they suck the meat from  
her bones
