[Pep Love]

we ahead of the charts

man we better than smart

we going get up in this industry and tear it apart

we the hierpariants

and you rappers is fuckin' parrots

I get 'embarrassed

When I hear it

but still I grin and bear it

Hierogyphics is your worst nightmare

since inseption

and I know that hurt right there

but accept it

we inherit the Earth right here

in the present

ressurrecting the first idea
