You're my heart my love from the start correct? (yes)

True blue together forever no need to guess

The feelings we shared since day one

Are the feelings I can't stay away from

A hundred years of peace I hope we live to be

The longer to enjoy the things you give to me

I thank God for the day that I met ya

So there's no problem, with givin a little extra

Peace of mind I ceased to find before ya

Then you soothed my soul soon as I saw ya

When I need your love I just call ya

You bring me joy, babe and I adore ya

Nothin can phase or erase our romance

No other gets a glance, no other has a chance

To you, ooh? Is who I need to be nex ta

All that you give I can give a little extra

Secure the crib so you can rest your head

Wake up in the mornin eat your breakfast in bed

Pick you up from work and take you out to eat

Come home rest your feet and I'll change the sheets

I'm your soldier, your warrior huh, all out trooper  
like a woman with a cape baby, I think you're Super  
The prize that you are to me I place none above it  
How you like it when I give a little extra (I love it)  
People, I wasn't always spoken for  
Afraid to get my heart broken sure  
Sometimes only a diss follows a kiss  
You got to take some risks to have a love like this  
Meanin mine? Yo I ain't gon front, it's kinda beautiful  
I'm not sayin that this is what I want you to do  
You had a love that didn't go your way  
You had negative personnel, dig what I say?  
I had someone in the past, don't you believe me  
I gave her the game, she could take it or leave me  
Sure as the rhythm of the beat fits my rhyme  
To her everytime, was buyin time  
She said buy me this that those them and whatever  
honey  
You want WHAT? I know you got money  
I used to say who you supposed to be takin me for  
Take me for me, I'm posed to get love for free  
Missin for a week then BOOM she appears  
Foolish jewels, and Polo gears, damn  
Where'd you get it? "I bought it" I said yeah  
You live in the projects and your family gets welfare  
Need I say more people, end of the situation

Washed my hands clean of that aggravation

Many places I laid my hat

Me, a gigolo, a male whore, nah I wouldn't of called me that

Today I don't allow I make a love vow

My life has changed how? I'm with Charise now

So have faith baby, my love protects ya

One of the ways, I give a little extra

Cheaters never win, they live a life of sin

Skeezin is for heathens, and loyalty's in

I can hear y'all sayin yeah right Jaz enough is enough

You're talkin that brown stuff, but buss it

Singles should mingle and if they see a good thing

They can carry on like nymphos on a one night fling

But someone who's committed you can't be wit it cause you

Can't have your cake and eat it too

And if you can the whole purpose is beat

Cuz when you're eatin your cake it won't taste as sweet

So if you really love someone, cheatin ain't smart

Your relationship will tear apart, you'll break somebody's heart

So yo don't even start it, there is no reason

Love takes a lot you ain't got keep on skeezin

Okay I'm packin up yo, end of lecture

You got somebody, give a little extra
