Proud is scared to act like, The girl escapes me this
time, I regret,
Of all the shame that you hide, I complete the same
kind, I forget,
Forced between this state and a look to hesitate,
The truth and I neglect,
Cause I never told you, And when you're acting so
proud like,
Like you never had your doubts,
You never said once like you were throwing it away,
And then you're hanging round, Shining like the sun,
Shocked everyone how it's making my day, And you,
You can try so hard with everything that's going wrong,
I know you're strong and you're here for the change,
You're never far away,
You're making my day, Or you're throwing it away,
What the hell have I meant if this how the day ends, I
regret,
Close your eyes and dream now,
The world so far you're heart sounds,
Alone and I connect, In all the ways I've dreamed you,
I chose a song to reach you,
But why it's sad again, Only now I see it,
And when you're acting so proud like,
Like you never had your doubts,
You never said once like you were throwing it away,

And then you're hanging round, Shining like the sun,
Shocked everyone how it's making my day, And you,
you can try so hard with everything that's going wrong,
I know your strong and you're here for the change,
You're never far away,
You're making my day, Or you're throwing it away,
And when you're acting so proud like,
Like you never had your doubts,
You never said once like you were throwing it away,
And then you're hanging round,
Shining like the sun, Shocked everyone how it's making
my day,
And you, you can try so hard with everything that's
going wrong,
I know you're strong and you're here for the change,

You're never far away,
You're making my day, or you're throwing it away
