(Angelo Bond, William Weatherspoon, McKinley Jackson)

drive
drive, drive me

don't park your loving
I want it, I need it all
don't park your loving
drive me up the wall

you're burning rubber on me
slow love down
back it up, honey, and turn it around
don't leave my arms 'til I'm fulfilled
and let our love slide behind the wheel
let love take control, darling
love will guide us through

[Bridge:]
there's so much ground to cover
you've got the love I need
the horsepower, my super lover
come on and give it to me
give it to me
come on and give it to me
give it to me

don't park it (don't park your loving)
your loving (go baby, don't stop)
I want it, I need it all
don't park (don't park your loving)
your loving (give me all you got)
drive me up the wall (drive me up the wall)

I feel our love is coming to an end
let's start it up and over again
we both know that our love is real
it ain't right to spin our wheel
let love take control, darling
love will guide us through

[bridge]

don't park it (don't park your loving)
your loving (go baby, don't stop)
I want it, I need it all
don't park it (don't park your loving)
your loving (give me all you got)
drive me up the wall (don't you park your love, baby)

hey
don't park your loving baby
don't park your loving baby
(drive) don't park your loving baby
(drive me) don't park your loving
oh woah oh

[repeat bridge]

don't park it (don't park your loving)
your loving (go baby, don't stop)
I want it, I need it all
don't park it (don't park your loving)
your loving (give me all you got)
drive me up the wall, yeah uh uh

drive me
drive me, baby
drive me
you better drive me crazy
I said drive me
drive me, baby
drive me up the wall

don't park it (don't park your loving)
your loving (go baby, don't stop)
I want it, I need it all
don't park it (don't park your loving)
your loving (give me all you got)
drive me up the wall, uh, mm
[repeat 'til fade]
