Move a little closer  
Let me whisper in your ear  
Ooh, I've got to tell you something  
You need to hear  
Baby (baby)  
Only can fill the need in me  
Fill the need in me

You're my water when I'm thirsty  
My heart is on fire  
My cup is drying empty  
But filled with desire  
Baby (baby)  
Only you can fill the need in me  
Fill the need in me

Baby, don't you see I'm falling  
Lately I can't keep from calling you  
Baby  
Come on, come on, come on  
Fill the need in me  
Ooh na na na, fill the need in me

You're more than something special  
You're the love of my life  
And every time I touch you  
I get fever on my brow  
Baby (baby)  
Only you can fill the need in me  
Fill the need in me

You're my water when I'm thirsty  
My heart is on fire  
My cup is drying empty  
But filled with desire  
Baby (baby)  
Only you can fill the need in me  
Fill this need in me

[saxophone solo]

Ooowee now baby  
Don't you see I'm falling  
Lately I can't keep from calling you  
Baby  
Come on, come on, come on  
Fill the need in me  
Ooh na na na, fill this need in me  
Come on, come on, come on  
Fill the need in me  
Mm-mmm-mm, fill the need in me

(fill the need in me)  
You're my water, I'm thirsty, baby  
(fill the need in me)  
My cup is drying empty  
Fill the (fill the need in me)  
Oh, lately I've been calling for you  
(fill the need in me)  
You're my everything  
Baby, fill the need (fill the need in me)  
You know my love is hanging, baby  
Fill the need in me  
Fill the need in me  
Fill the need in me
