(Al Willis)

fly little blackbird
spread your tiny wings and fly
carve a pathway across the sky
little blackbird, fly high
there's a cloud waiting somewhere for you
full of sunbeams and rainbow-colored dreams
where wishing wells, far like fairytales
a place where dreams come true
you can catch a falling star (catch a falling star)
hod it in your hand
catch a ride on the Milky Way
see tomorrow land
so fly, little blackbird
spread your tiny wings and fly
chase your rainbow across the sky
little blackbird, fly high
[interlude]
ooh ooh ooh, ooh ooh ooooh
reach up and touch the sky
('cause it's so very high)
climb the staircase to the stars
meet from Mars to Mercury
across the galaxy
to the wonderland of mystery
(whatever) whatever you want to do
just make a wish (wish)
and your dream will come true
fly (little blackbird, fly)
chase your rainbow across the sky
(little blackbird, fly-y-y-y)
fly... blackbird, blackbird
reach for the sky (fly little blackbird)
blackbird, blackbird
flap your tiny wings and start to fly
flyyyyyy (fly)
right on time to journey far
discover who you are
write your name across the sky
you can do it if you try
reach for the sky (fly little blackbird)

fly-y-y-y, blackbird, blackbird
flap your tiny wings and start to fly
fly-y, ooh ooh, ooh ooh
(right on time to journey far)
time for you to journey far
(discover who you are)
discover who you really are
(write your name across the sky)
write your name across the sky
(you can do it if you try)
