(E. Coleman, Jr./D. Jones/A. Mason)

when you're makin' love to music
ain't nothing better in the whole wide world
everything is mellow when you got your fellow
and love so good feels so good

'cause I love makin' love to the music, baby
I love makin' love to you
I love makin' love to the music, baby
I love makin' love to you
I love you, ooo

* can you feel that beat boy
can you feel that beat boy
can you feel that beat boy
can you feel that beat boy

ooo, when we touch
I get a feeling of ecstasy
and the thrill I feel is oh so real
when the music takes over me

'cause I (I love makin' love to the music, baby)
love the way you hold me (I love makin' love to you)
'cause I (I love makin' love to the music, baby)
love the way you touch me (I love makin' love to you)

(when we love together) ooowee baby
(everybody knows) everybody knows
(makin' love to the music)
(is the only way to go) only way to go

[* - repeat]

get down, can you feel it
oh get down, the music's playing

[* - repeat]

can you feel it

oh can you feel it
I love makin' love to the music
I love makin' love to you, boy

I love (I love makin' love to the music, baby)
it's so good to me (I love makin' love to you)
when we're makin' love to the music
(I love makin' love to the music, baby)
it's such a sweet melody, oh oh
(I love makin' love to you)

when we love together
everybody knows, everybody knows
makin' love to the music
is the only way to go, oh oh

can you feel that beat boy
can you feel that beat boy (I love makin' love)
can you feel that beat boy
can you feel that beat boy

can you feel that beat boy
can you feel that beat boy
(I love makin' love to the music, baby)
can you feel that beat boy
can you feel that beat boy
(I love makin' love to you)
[repeat to fade]
