(M. Augustus/P. Scott)

Come on and get it, come on and taste it
Come on and get this good, good lovin'
Come on and get it, come on and taste it
Come on and get this good, good lovin' (Taste it)
Come on and get it (Don't waste it), come on and taste
it
Come on and get this good, good lovin'

I can see you're looking for some fun
Won't you say you're gonna let me be your number
one?
I'm hoping you'll open up your heart

Tell me how could you refuse
What have you got to lose? (You got to lose)

My love is too sweet to be wasted
When you coulda use it
You'll never know until you taste it
Baby, I'll prove it now
I've got what you need, my love's guaranteed
I'm ready to please you, baby
I, I've got what you need, it's easy to see
I've got what you nee-ee-ee-eed, yeah
I've got what you need (Come on and get it)
My love's guaranteed, I'm ready to please

There's no need for you to try the rest
Let me love you baby, then you'll know you got the best
I could be a good thing for you, boy (Boy)

A love affair like this (a love affair like this)
I hate to see you miss, yeah, yeah

My love is too sweet to be wasted
When you coulda use it
You'll never know until you taste it
Baby, I'll prove it now
I've got what you need, my love's guaranteed

I'm ready to please you, baby
I, I've got what you need, it's easy to see
I've got what you nee-ee-ee-eed, hey
I've got what you need, my love's guaranteed, I'm
ready to please
