it's the time for our graduation  
it's more than a cap  
it's more than a gown  
we've accepting an invitation  
to the part of our lives celebration  
well, we're moving, we're moving  
and together we're on our way

because we are the future  
the future generation  
we're the future generation  
we are the future (we are the future)  
the future generation  
we're the future generation

oh, hand in hand when we can  
hem between the joys and sorrows  
we can fly, you and I  
to that land we call tomorrow  
here we come what we reached for  
if we all reach out as one

(because we are the future) we are the future  
(the future generation) we're the future generation  
(we're the future generation)  
can't you hear me  
you and me, baby (we are the future)  
(the future generation) we're the future generation  
(we're the future generation) ohh

yes, it's so hard  
to turn loose and leave your town behind  
but it won't mean a thing  
and if you don't, and if you don't use your mind  
hey I said that it won't  
(it won't mean a thing now)  
it won't mean a thing  
(if we don't use our brains now)

you gotta use your mind  
(it won't mean a thing now  
if we don't use our brains now)  
use your mind now all the time  
(if we don't get our chains now)

it's up to me, it's up to you  
tell me now what we're gonna do  
whoa whoa yeah  
baby, I said walk with me, talk to me  
take my hand, let's make a family  
baby  
oh it's up to me, it's up to you  
tell me now what we're gonna do  
whoa whoa baby, hey yeah  
we are the future (we are the future)  
we are the future (the future generation)  
we are the future generation you got  
hey, we're climb the highest sights  
we're gonna celebrate tonight, yes we are  
look out, come on everybody all over the world  
we are the future, hey  
we are the future  
hey, let's stop the world  
open the doors  
find out what we're looking for
