I met a girl with awkward moments of beauty
And all her moments in between were too
She's got a tattoo on her lower end

You should see this girl
You should see this girl
She's my sunny eyed girl
You should see this girl
You gotta see her
You should see this girl
She's my cinnamon girl
you should see this girl
You've got to see her

I met a girl with awkward kinds of moods
And all her moods in between were cool
She says she likes to keep me on my toes
