Wrap your fingers around this now
I've heard things about you
Walkin gthe halls we know so well
No way that could be true
You got a girl, said she's a model
Sounds like you've got a big bravado

I'd like it if they'd only tell it like it was
I wouldn' tmind, but my mind's making such a fuss!
Am I the only one inside here?

Got a job, and you make 800 grand
Selling used Isuzus
Well if the guy on the stage is your best friend
Am I backstage with you?
You got a girl, said she's a model
Sounds like you've got a big bravado

It's all a state of mind
It's all a state of mind
We can make these walls come down
and leave it alone, leave it alone
