De Vermis Mysteriis, awkward and curious, anoesis has
opened its face
Kathulos, conjurer, tests of pain, Hasturers, pupils of
black show their faith

Wizards, Hypoborea, craft of Khem, torn of the
acriments write of their place
Winds of Zaar, origin traced, blue of skin, nuclear
phase takes a race lost in time

Lance of kings, string of hate, obsessed upon morals
and taint that obeys winds and kinds
Perpetrate, land affixed, Acheron escaping the scrolls
and a fate of their shrine

Long live traveler
Winds now die
Dark place creature
Destined night
