I got a lot of things
That i have to do
all these distractions
our future's coming soon

we're being pulled
in a hundred different directions
but whatever happens
i know i've got you

you're on my mind your in my heart
it doesn't matter where we are
we'll be alright
even if we're miles apart

Oh
all I wanna do
is be with you be with you, be with you
there's nothing we can't do
I just wanna be with you only you

no matter where life takes us
nothing can break us apart
i just wanna be with you (you know its true)

yeah
be with you oh

yeah yeah

you know how life can be
it changes over night
it's sunny then raining
but it's alright

a friend like you
always makes it easy
i know that you get me
every time

through every up through every down
you know ill always be around

through anything you can always count on me

Oh
all i wanna do
is be with you be with you
there's nothing we cant do
I just wanna be with you only you

no matter where life takes us
nothing can break us apart
i just wanna be with you (you know it's true)

i just wanna be with you
