Have u seen
The world doesn't care of your life...
Try to realize we're such a small part
In the Divine-mind...
There are so many places
And I just want to be there...
Just take my breath of eternity
So many times I have tried
To see through the dark realms of my... fantasy
How many times have I said
I won't fall and then stand back on... a senseless road

I am sure we have to preserve
What we have inside...
We have the power and we just don't know
How to get control
There are so many places
And I just want to be there...
Just take my breath of eternity
So many times I have tried
To see through the dark realms of my... fantasy
How many times have I said
I won't fall and then stand back on... a senseless road

So far but so close
I remain here alone...
Just take my part on this eternity...
