(Music: Alessandro Muscio - Words: Stefano Droetto)

The Prophecy was right  
I know it for all the tears I cried  
How can we face this day?  
The pillars of fate are falling down

Help me to see  
If there's a reason to believe  
If there's a place for you and me.....

Oh Oh Day by day we lose our faith  
Lords of the World we won't protect you  
Crossing the mysterious line

The gift of Creation makes us Divine  
We won't come back this time

Don't wait for us we're far away.  
To conquer what the time denies  
(We're) growing stronger, (we're) goin' insane!  
Back from the past will rise  
Someone to fight what we became

Help me to see  
If there's a reason to believe  
If there's a place for you and me.....

Oh Oh Day by day we lose our faith  
Lords of the World we won't protect you  
Oh Oh Step by step we reach the Sky  
We are the Gods of nonentity!
