

Highway 101 "Change"

Visit "[Change](#)" on MotoLyrics.com

Been a long time lonely grown set in my ways
No eye for tomorrow just a chain of yesterdays
You were the first time I knew where I stood
Now I walk a new line and I think the change is gonna
do me good

Gonna suit me fine bring it back again it's just a matter
of time
Gonna play my cards right gonna knock on wood
I know that it's coming and I think the change is gonna
do me good

Stone cold sober in the broad daylight
Downtown dancing on a Saturday night
Just thinking about you makes me feel alright
It's the way that you love me, the way that you love me

Stone cold sober in the broad daylight
Downtown dancing on a Saturday night
Just thinking about you makes me feel alright
It's the way that you love me, the way that you love me

Your love is a shadow across all my dreams
I wake up and want you and your face is all I see
No words have been spoken it's all understood
My heart is wide open and I think the change is gonna
do me good

Gonna suit me fine bring it back again it's just a matter
of time
Gonna play my cards right gonna knock on wood
I know that it's coming and I think the change is gonna
do me good
Gonna suit me fine it's just a matter of time
