Round and round  
You walk in circles  
In loops just roaming

Tomorrow's mundane  
But it maybe better than today ending  
Think you don't want to  
Unfinished matters left behind

In circles

Moon and sun  
In turn they come out  
Day in and day out  
Stop the time  
Don't even try to  
Create in one's mind

Tomorrow's mundane  
But it maybe better than today ending

On and on earth turn  
Rotate repeat one's life one's day

In sustain  
On and on  
In circles

Tomorrow's mundane  
But it maybe better than today ending  
No use in trying  
Impossible to stop break time the cycle  
On and on earth turn  
Rotating one's life day

In sustain  
On and on  
In circles  
In circles
