I talked to you today,
About all the troubled times,
When nothing goes,
Nothing goes away
And all the things
You've told me to believe in.
I'm alone,
In my reveries.
I'm alone,
In the pain you brought on.
I'm afraid,
That you won't see me
And all the times we've had

I've been waiting here,
Waiting by the phone.
I've been touching you,
In my only thoughts.
Don't you know,
That I'm still here.
Waiting for you to
Call me into your
Life insincere.

Left your stormy days,
Don't you know you're mine?
You see it all behind,
Don't you see the sky?
I want us all together,
Do you know we're right?
You leave us all denied,
Let you all decide.

You call me today,

With your enemies.
You call me today,
With your infinite dreams.
We talked about it,
You're in my mind.
Digging caution,
Leaving you behind.

Left your own today,
Don't you know you're mine?
Left your own behind,
Can't you see the sky?
It's a stormy day,
Don't you understand?
We're in all behind,
Let you all defend.

Ah ah ah ah.
Take compassion,
Leaving you behind.

Left your own today,
Don't you know you're mine?
Left your own behind?
Can't you see the sky?
See them fall behind,
Don't you know you're mine?
Left it all behind,
Can't you do the same?
But can't you do the same?
Left your own behind,
Leave us all behind,
Can't you do the same?
