Today's the day  
It feels like nothing has changed  
But everything one thinks it has  
I'm the same person  
I was last year  
It's not like I'm doing stupid wrong things  
I'm just

[Chorus]  
Living a hard new life  
I can make it  
Trying to make it; it's all right  
Living a hard new life  
Today's the day I do something  
And I it feels all right

Walking down the street  
People following me  
Can't they just go away now?  
I never thought it would be this way

I never thought I would I'll end up this way

[Chorus]

I know I can make it  
Don't push me down  
Don't rock me all around

A hard new life  
A hard new life  
A hard new life  
A hard new life

[Chorus] x2
