"Just Livin My Life"

When you say you give me
Everything i wanted
I know you don't tell the truth.
When you say I'm the only one
That you've ever wanted
I know you don't tell the truth.

I'm Just, Just, Just.. Livin my life
Cause you know that i love you
You just want to give me a kiss
You never actually tell me right
You just stare at me and say no way

Because you don't really tell the truth
Just give me one.. one reason
That i can trust

Because you give me such a hard time
That i cannot get off of my mind
You share all your secrets
That are not true.
