Everyone knows that I'm ten feet under
Till you come along and brighten my day
Everyone knows that you kill the thunder
The roaring in my brain
You've given me the strength
To see right through the haze

Shine, come on and let it shine
Light me up, make me feel alive
You've got what it takes (shine on me today)
Shine, and only you know how to lift my spirit off the
ground
And chase those clouds away
Shine on me today

When everything's wrong
I just pick the phone up
The sound in your voice well it fills my eyes with tears
of joy
'Cause I know you'll be there
When I'm hanging by a thread
You're my heaven sent

Shine, come on and let it shine
Light me up, make me feel alive
You've got what it takes (shine on me today)
Shine, and only you know how to lift my spirit off the
ground

And chase those clouds away

Oh you have this way of making me feel like I can fly
You're underneath my wings
So I'll free fall out of the sky
You're always there to save me
You know you'll save me

Shine, come on and let it shine (come on and let it
shine)
Light me up, make me feel alive (wake me up)
You've got what it takes (you've got what it takes)
(shine on me today)

Shine, and only you know how to lift my spirit off the
ground
And chase those clouds away

Come on and shine (shine)
Shine
Shine on me
Shine on me
Shine on me today

Shine (please)
Shine on me today

Everyone knows that I'm ten feet under
Till you come along and brighten my world
