

Hilary Duff "The Math"

Visit "[The Math](#)" on MotoLyrics.com

You're always trying to figure out
What I am all about
If you don't know what the answer is
Then just shut up and kiss

It shouldn't take forever
To put it all together

If you can't do the math
Then get out of the equation
I am calling you back
This is star 69

Is it a minus or a plus?
Does enough equal enough?
If you can't do the math
Then nothing adds up tell me why I'm here

Sure I want someone to understand
But I don't need the stress
I'm not about being analyzed
Like it's some kind of test

Don't have to be a genius
To figure what's between us

If you can't do the math
Then get out of the equation
I am calling you back
This is star 69

Is it a minus or a plus?
Does enough equal enough?
If you can't do the math
Then nothing adds up tell me why I'm here

You can spend your whole life analyzing
Justifying, quantifying, and dividing
'Till there's nothing anymore

Why don't you just close your eyes
And kiss my lips and let it go

Just let it flow, it's what I'm waiting for

Don't have to be a genius
To figure out what's between us

If you can't do the math
Then get out of the equation
I am calling you back
This is star 69

Is it a minus or a plus?
Does enough equal enough?
If you can't do the math
Then nothing adds up tell me why I'm here

If you can't do the math
Then get out of the equation
I am calling you back
This is star 69

Is it a minus or a plus?
Does enough equal enough?
If you can't do the math
Then nothing adds up tell me why I'm here
Tell me why I'm here
