Was it a face that invaded your mind  
A kind that wasn't hard to find  
She lets you think that you found her first  
That's how she works  
Her sick and twisted gypsy curse  
She can swallow knives  
She can swallow lives  
Golden black stare  
But the night of your demise..

Try to runaway with the gypsy woman  
Here today then gone for good  
Can't get away with a gypsy woman  
Thought no one would know  
Your secrets down below  
But you can't go  
Can't go with her  
Can't go  
Can't go with her  
The gypsy woman

This is a favorite game to play  
She's got you stumbling  
Talks with a grin  
Cause she's got no shame  
Enjoy the fame  
Bringing down the family name

Try to runaway with the gypsy woman  
Good today then gone for good  
Can't get away with a gypsy woman  
Thought no one would know  
Your secrets down below  
But you can't go  
Can't go with her  
Can't go  
Can't go with her  
The gypsy woman

She can rob you blind with just one look  
From those eyes  
Out of all the thieves that trained her

None of them could save her

Try to runaway with the gypsy woman  
Here today then gone for good  
Can't get away with a gypsy woman  
Thought no one would know  
Your secrets down below  
But you can't go  
Can't go with her  
Can't go  
Can't go with her  
The gypsy woman
