I've been so wrapped up in my warm cocoon  
Something's happenin', things are changin' soon  
I'm pushin' that edge, feeling the crack,  
But once I get out, there's no turning back  
Watching the butterflies go towards the sun  
I wonder what I will become

Chorus:

Metamorphosis Whatever this is  
Whatever I'm going through  
Come on and give me a kiss  
Come on, I insist  
I'll be somethin' new, a metamorphosis

Things are different now  
When I walk by, you start to sweat  
And you don't know why  
It gets me nervous, but it makes me calm  
To see life all around me moving on  
Watching the butterflies go towards the sun  
I wonder what I will become

Chorus(2x)

Everyday is a transformation, everyday is a new  
sensation, alteration, modification, an incarnation, a  
celebration  
Everyday is a new equation, everyday is a revelation,  
information, anticipation, on to another destination  
Metamorphosis, sis, sis  
Chorus(2x)
