Oh Rosie  
Oh won't you be with me  
Oh Rosie  
Oh can't you see  
We're made to be together  
Take this ride with me  
To the chapel now  
We'll make history

Oh Rosie  
Oh it was fantasy  
Oh Rosie  
Oh that we'd live happily  
I faced pure rejection  
Down on one knee  
Shattered dreamy visions  
Ripped right out of me.

The ring never went around the Rosie  
No, the ring never went around the Rosie  
I just swallow all this whole

I just swallow this whole  
'Cause I'm feeling like I'm never ever ever gonna do it  
again

Oh Rosie  
With what you did to me  
Oh Rosie  
There's no annulment fee  
Cause now I'm gone  
Don't reach out to me  
This shoebox love  
Is all I see.

The ring never went around the Rosie  
No, the ring never went around the Rosie  
I just swallow this whole  
Just swallow it whole  
Cause I'll never do it again
